mineLatinAmerica

WITH PREMIER SPONSORS

NORTON ROSE LLP AND TMX GROUP

November 1, 2012 **TORONTO**

Building on the success of our **mineSouthAmerica** and **mineMexico** seminar series we are pleased to announce that we are combining these seminars into a new, expanded full-day event – **mineLatinAmerica** – in Toronto on Nov. 1, 2012. The event features updates by public and private mining companies on their Latin American projects and technical presentations on doing business in Latin America's mining industry by expert advisors and service providers as well as country specific overviews, trade show, keynote address and networking cocktail reception.

We are offering two different courses in 2012 - our general **Understanding the Mining Industry: From A to Z** course and **Understanding the COAL Industry: From A to Z**. Learn about technical aspects (including exploration, development, operations and processing), the economics of mining and financing and deal-making in a hands-on, interactive setting with Canadian and international case studies.
