Medicine for Miners

Travel and Occupational Health: What You Need to Know

The **Canada-Africa**
Chamber of Business

Chambre commerciale
Afrique-Canada

WHO SHOULD ATTEND?

Senior executives, Human Resources and Health & Safety Managers, all travellers to medically challenged regions

A complimentary workshop presented by MineAfrica, mineLatinAmerica, The Canada-Africa Chamber of Business

The same workshop will be offered twice on Wednesday March 8, 2017:
once from 8:30 am to 10:00 am and repeated again from 10:30 am to 12:00 noon

People are your most important assets and protecting them when travelling to, or working in medically challenged regions is life and reputation saving. This 90 minute workshop with international health management expert **Dr. Albie de Frey**, will provide you with a concise overview on the basics and principles of travel and occupational health in developing and tropical countries, the major medical, legal and logistical risks facing you and your employees, and how to proactively deal with these risks in a cost-effective manner.

During the session:

Tullia Marcolongo, Executive Director of IAMAT, discusses what Canadian mining companies should look for when choosing international medical insurance for employees deployed to developing countries, including the ways service provider location and limitations and exclusions can affect coverage.

Peter Sturm reviews the legal, ethical and moral obligations of Canadian companies to practice the best health and safety standards at home and abroad. "Doing Well by Doing Good" emerges as the choice approach for companies, irrespective of where they operate.

See reverse for more information.

Your Workshop Leaders

Dr. Albie de Frey, MD, Director of Geneva-based iNHEMACO S.A. has more than 20 years' experience in the provision of corporate travel and occupational health risk management. He is a Fellow of the Royal College of Physicians and Surgeons and the Australian College of Tropical Medicine and a Senior Honorary Lecturer at the University of the Witwatersrand, South Africa.

Tullia Marcolongo, MA, Executive Director of International Association for Medical Assistance to Travellers (IAMAT), a NPO dedicated to improved travel health. Tullia published guides to help travellers navigate insurance and medical care abroad, and holds a Certificate in Travel Health®. She is a member of the International Society of Travel Medicine and the American Society of Tropical Medicine and Hygiene.

Peter Sturm is a senior Safety, Health and Risk Management Executive with Sturm Consulting Inc. As a Certified Health and Safety Consultant (CHSC), he works with companies to assist them in strategically managing their safety and health risks. Peter holds several leadership roles with health and safety bodies including.

Topics to be covered include:

- An introduction to travel health, concepts, benefits and practice
- Organisational cross-border Duty of Care
- A global geographical health risk profile
- Vaccine preventable disease for expats and national employees
- What it does and does not cover
- Malaria myths
- Health insurance coverage – what to look out for
- Medical emergency management – you need more than just a number
